INDEX OF NAMES.

Nors. — This Index includes all the names of persons mentioned in this volume, except the names of ministers given in the General Statistics, which are indexed alphabetically on pages 115–133 (the names of ministers in the tables not so indexed being found in this Index); and excepting the names of students in Theological Seminaries, pages 277–282, which are there arranged alphabetically in each class.

The reader is reminded that a particular name frequently occurs more than once on the same page, and that the same name is sometimes variously spelled.

For general topics, see Table of Contents, pp. iii., iv.
